

Cooke County EC Rebate Program

Beginning January 1, 2010, Cooke County Electric Cooperative (CCEC) will offer a free energy audit that includes the installation of CFL bulbs and also residential rebates associated with HVAC tune-ups and the replacement or installation of a high efficiency heat pump. Reducing the amount of energy used in your home is easier than ever when small conservation efforts pay you back.

CCEC encourages you to start saving today with one or more of the following incentives:

- **Free Energy Audit with CFL Program**
- **High Efficiency Heat Pump Rebate Program (installed on/after July 1, 2009)**
- **HVAC Tune-up Rebate Program (service done on/after July 1, 2009)**

You can find out more information about each program by going to Cooke County Electric Cooperative's website @ www.cceca.com.

Cooke County Electric Cooperative rebates (CCEC Rebate Program) are available for the following qualifying purchases and/or services. The availability of the CCEC Rebate Program is limited and rebates will be processed on a first-come, first-served basis. When funds have been depleted, the CCEC Rebate Program will no longer be available until the next year, pending board approval. Members must submit all required documentation to be eligible for rebates. To apply for any of our CCEC Rebates, please read and complete our application. Please submit the application and all required documentation to kathy.boone@cceca.com or mail to:

**Cooke County Electric Cooperative
Attn: Kathy Boone
P.O. Box 530
Muenster, TX 76252-0530**

For questions, please call (940) 759-5116 or e-mail your questions to kathy.boone@cceca.com.

Cooke County Electric Cooperative (CCEC) reserves the right to inspect the member's property and equipment associated with a rebate request to determine eligibility. CCEC is not a party to any agreement between the member and any service provider hired by the member to install equipment (i.e. high efficiency heat pumps) or to perform services (i.e., HVAC tune-ups) in order to qualify for a rebate. The member and such service provider are solely responsible for satisfying rebate eligibility requirements.

Application for Reimbursement

Compact Fluorescent Lighting Program:

A residential member who signs up for a free energy audit performed at their primary residence is eligible to receive eight (8) compact fluorescents lights (CFLs) to be used in their most frequently used fixtures.

CFLs present a significant opportunity for energy savings. CFLs are generally 75 percent more efficient than incandescent bulbs, last up to ten times longer and produce about 75 percent less heat.

High Efficiency Heat Pump Rebate:

Members who replaced their old HVAC equipment with a new High Efficiency Heat Pump, or installed (new construction) High Efficiency Heat Pump equipment on or after July 1, 2009 through present date at their residential home may be eligible to receive a \$150 rebate for a High Efficiency Heat Pump with a minimum 14 SEER and 8.2 HSPF (or higher) rating or a \$300 rebate for a High Efficiency Heat Pump with a minimum 15 SEER and 9.0 HSPF (or higher) rating.

The rebates for this program apply for the replacement of existing HVAC equipment at any residential home (including mobile homes) and new home construction. The member must obtain a Certificate of Product Ratings with the Air-Conditioning Heating and Refrigeration Institute (AHRI) designation (AHRI Reference Number, Date, and also the Certificate Number) of the qualifying installation from the member's contractor to present to CCEC for verification purposes. The model and serial numbers must be on the invoice/receipt from the HVAC contractor.

Please contact Cooke County Electric Cooperative (CCEC) prior to any High Efficiency Heat Pump purchase to verify availability of rebates remaining for a particular program year. Please contact CCEC if you have any questions about the High Efficiency Heat Pump Rebate program concerning rules and qualifications. To qualify for the Heat Pump Rebate, the installation of qualified HVAC equipment must be at a primary residential location receiving electric service from CCEC. CCEC reserves the right to do a post installation inspection of the High Efficiency Heat Pump installation prior to remittance of the Heat Pump Rebate.

This rebate is not applicable for homes that use natural gas, propane or another fuel source other than electricity as their source for heating.

HVAC Tune-up Rebate: Does not cover repair work on unit.

Residential members may be eligible to be reimbursed (up to \$150.00) for the invoiced price of an HVAC tune-up (**1 tune-up per unit per year**) performed by a qualified service professional on or after July 1, 2009.

Model # of System	Age of System (CCEC will not pay for tune-up of unit over 12 yrs).
--------------------------	---

An HVAC tune up includes: checking and correcting the unit's refrigerant pressure and tubing, checking and adjusting belt tension, cleaning and lubricating the indoor blower unit, replacing filters, cleaning inside the "A" coil, and checking the thermostat, wiring, and other electric parts. A copy of the receipt from a qualified contractor stating that the work above was completed must be provided to the member.
